

## *Innovations to Address Prescription Opioid Abuse*

December 3, 2015  
11:30 – 1:00 PM

Capitol Visitors Center, Room SVC-202

Precision medicine, big data, disposal technology, new therapies –  
Join CEPOP for a lunch briefing on how these and other innovative approaches are helping to  
confront the opioid abuse epidemic.

### Presentations to include:

Pain Therapies: Inpatient Strategies to Reduce Opioid Overuse  
**Dr. Anita Gupta**, Associate Professor, Drexel University College of Medicine

Precision Medicine: Who Should or Should Not Take Opioids  
**Mr. Brian Meshkin**, President & CEO, Proove Biosciences

Big Data: Using Analytics to Identify and Confront Opioid Risk  
**Mr. John Donahue**, Chairman & CEO, Axial Healthcare

Safe Disposal: Patient and Family Engagement to Stem Diversion  
**Gen. Arthur Dean**, Chairman & CEO, CADCA

*Launched in early 2014, CEPOP engages diverse stakeholders behind a comprehensive and balanced public policy strategy to reduce prescription opioid abuse and promote treatment options, both for those living with chronic pain and confronting addiction. CEPOP is over 60 participants and growing with involvement from patient and family advocacy, provider, public health, dispensing, distribution, and manufacturing organizations.*
